

Maintenance work on Gladesville Bridge, from Sunday 25 August 2024

Community Notification

August 2024

Transport for NSW acknowledges the Darramuragal people as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

The NSW Government is carrying out this essential work as part of ongoing safety maintenance of bridges across the state road network.

What work are we doing?

Transport for NSW will upgrade the barrier screens on both sides of Gladesville Bridge later this year to improve safety for pedestrians and motorists.

Before construction starts, we'll test the concrete by taking samples from the underside of the bridge. We'll provide an update on the remaining work schedule later in the year when we return to remove the old safety screens, repair the concrete, and install the new screens.

We will then return later in the year to commence the removal of existing safety screens, reinstatement of concrete, and the installation of new safety screens.

When will we be working?

Concrete testing will be carried out over **four nights** between **Sunday 25 August** and **Sunday 29 September**, weather permitting.

Our work will be carried out at night to limit disruption to drivers and provide safety to our workers, pedestrians and drivers. Our work hours will be between **8pm and 5am, Monday to Thursday**.

Managing our impacts

We don't expect any disruption to the community during concrete testing.

We will provide an update on the remaining work schedule later in the year.

Traffic changes between 8pm and 5am on Gladesville Bridge

There will be temporary traffic changes to make sure the work zone is safe. This includes partial lane closures and a reduced speed limit, which may affect travel times. Pedestrians should follow the directions of onsite traffic controllers.

Please keep to speed limits and follow the direction of traffic controllers and signs.

For the latest traffic updates, you can call **132 701**, visit [livetraffic.com](https://www.livetraffic.com) or download the Live Traffic NSW App.

Transport for NSW thanks the community for their patience while we complete this work.
